

LEARNING SPECIALIST AND COACH

MOTIVATED STUDENTS ACHIEVE, PERFORM, EXCEL.

My goal is to help students become independent learners who find confidence in themselves and enjoyment in learning. Individualized instruction is provided that is based on the student's needs, learning style, strengths, and challenges. Executive function skills are taught so that students understand the many aspects of learning: self-starting, finishing tasks, prewriting, organizing, planning, and executing.

Lessons also function on content, strategies, and test preparation which includes not only school tests but also ISEE, SSAT, SAT, and ACT tests. I have over thirty years of experience as an administrator, teacher mentor, and teacher in grades 1 – 12. Many local references are available. The joy of learning can be discovered even in a stressful academic environment.

Please feel free to call or email me to discuss any needs you may have.
